

Lawn Maintenance Technician
The Landscape Consulting Group

We are looking for an energetic individual that will assist our maintenance supervisor onsite. The position will assist the field supervisor in route planning, process efficiency, equipment maintenance, account growth, and account up-selling. This individual will not have any supervisory responsibilities but will be required to develop certain skills and become a candidate for promotion.

Duties:

- Safe operation of mowers, weed eaters, pruners, trimmers, edgers, company vehicles, etc.
- Adhering to Company's safety policy and ensuring that the public will be safe while in contact with crews.
- Setting up truck daily with all equipment needed to complete daily tasks.
- Ensuring that customers are satisfied completely through effective communication.
- Provide value added service by exceeding customer expectations.

Requirements:

- Excellent customer service skills
- Strong attention to detail
- Self-motivated
- Strong work ethic
- Ability to prioritize in a fast paced environment
- Clean driving record
- Willingness to become a leader and seek opportunities for advancement
- Submit to a pre-employment drug and background screening

Experience:

- Lawn maintenance experience preferred
- B2C sales experience preferred
- High school or equivalent education

Pay:

\$10-15 per hour DOE
Growth opportunities available
Paid vacation on DOH
Paid training

Our three main objectives, in this order, are customer service, quality, and communication. It is a customer centric approach that has allowed us to show substantial growth in 2015. If you're an individual that can help uphold our three objectives, there will be future opportunities for you to grow with our company.
